EMERGENCY RESPONSE PROCEDURES:

IN CASE OF EMERGENCY CONTACT:

Mel Waldron – 604-487-4294 OR Phillippe Beauchemin – 604-414-9707

LOCATION OF WATER SOURCE (BREW BAY ID PUMPHOUSE):

2260 Brew Bay Road, Powell River, BC, V8A 0L2

Directions to Site - Pump House is located at the corner of Highway 101 and Brew Bay Road: Turn off Highway 101 onto Brew Bay Road, which is on the north side of the Lang Creek Bridge. Turn in at the first driveway on the left just past the mailboxes.

EMERGENCY PROCEDURES:

If the water in the water system becomes contaminated – i.e. receipt of an unsatisfactory water test result, or in the event of an interruption in the treatment process:

1. Contact the System Operator(s) (see info above for Mel Waldron or Phillippe Beauchemin) or if not available, contact backup person, Richard Neall
2. Shut off water supply, if appropriate (instructions posted in the pump house)
3. System Operator (Mel Waldron, Phillippe Beauchemin) will notify DWO (Michael Nguyen) or back-up health contact (see Public Health Contact list).
4. System operator (Mel Waldron, Phillippe Beauchemin) will contact Brenda Neall, who heads the emergency telephone committee and also sends out any automated water system alerts via the BBID Website. Contact any other appropriate person(s) required. List of critical repair emergency numbers are included in the Emergency Contact info.
5. The Emergency Call Committee and/or Alert System messages will be used to notify affected water users. Operators to provide necessary updates if further member notification is required.
6. Mel Waldron and/or Phillippe Beauchemin, will coordinate repair
7. If necessary, an alternate source of safe drinking water will be procured

START UP PROCEDURE:

1. Identify and correct source of contamination.
2. Entire system should be flushed and disinfected, following Small Water System operator guidelines.

Brew Bay Improvement District Emergency Response Plan

3. Submit water sample(s) to appropriate approved Lab for testing. For bacteriological contamination, three successive sampling results must be negative.
4. Contact DWO. (Jack Davidson) for approval to resume normal use of water supply.
